TIMELESS BEAUTY...

Craftsmanship, quality and exclusivity! These are the features that make the RUGGERO a truly spectacular espresso machine! The RUGGERO was designed by the Slade family in 2005 as a tribute to their grandfather, Henry Rogers. Henry, known to his friends as "Rodg", made espresso machines his life and livelihood.

RUGGERO is a truly unique espresso machine. It is the first machine of its kind to offer a customised, coloured body and a light display panel that can be used for advertising. Every RUGGERO is hand assembled in Melbourne and custom made to order.

KEY FEATURES

- Volumetric/ Semi Automatic Control
- Four programmable doses per group
- Manual over-ride switch per group
- Digital boiler temperature display
- Individual PID controlled boiler per group
- Pre-Heat Exchanger - pre-heats incoming water into the coffee boiler
- Group head with direct pre-infusion chamber - for an even penetration of the coffee
- PID technology for temperature stability - allows you to electronically control the espresso brewing temperature
- Multi-functional digital display - includes time management, coffee counter, maintenance management, promotional messages 99.9% pure copper boiler

EXPRESS YOURSELF...CUSTOM BUILT EXCLUSIVELY FOR YOU

WHY CHOOSE EXPOBAR RUGGERO?

Understanding our customers' needs and the changing requirements of the New Zealand coffee industry has been a key factor in our success. We constantly strive to exceed customers' expectations, whether it involves personalising a machine or adding special upgrades or features.

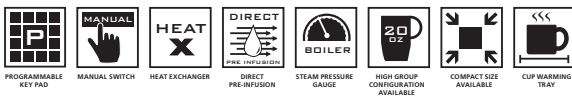

The EXPOBAR RUGGERO is fast becoming one of our most popular espresso machines. Hand assembled in Melbourne, combining state of the art technology with high quality materials, this custom built machine offers endless options. Available as a traditional heat exchanger or multi-boiler machine, in a 2, 3, or 4 group configuration (1 or 2 group compact versions are also available) there is an EXPOBAR RUGGERO to suit all your needs!

Each and every EXPOBAR RUGGERO is carefully bench tested by technicians ensuring the machine is in perfect working condition before it leaves our factor.

There are 1000s of colours to choose from and PMS colour matching is available. Each EXPOBAR RUGGERO comes with an acrylic lable that is backlit by a lightbox and perfect for advertising your coffee company/business name or company slogan. You can also replace the traditional RUGGERO badge with your company logo - making your machine truly unique!
