Espresso Coffee Machines

## OFFICE SEMI AUTOMATIC

The OFFICE SEMI AUTOMATIC espresso coffee machine with heat exchanger, 2,75 litres water tank, copper boiler with 1.5 litres capacity and a large 2000watt element for unlimited steam production. One steam tap (stainless steel) and one hot water tap.

Commercial EB61 group head with full chemical backflush ability at this price is outstanding value & quality.

### KEY FEATURES

- Product Code: 01600102
- Functionality: Semi Automatic Control
- Power Requirements: Single Phase
- Maximum Installed Power: 10 amps
- Boiler Size: 1.5 ltr
- Boiler Composition: 99.9% Pure Copper
- Automatic Boiler Filling: Yes
- Manual Boiler Filling: No
- Heating Element Power: 2000 watts
- Hot Water Outlets: 1
- Steam Outlets: 1
- Steam Pressure Gauge: No
- Pump Type: Vibration
- Standards Compliance: CE

## OFFICE CONTROL

The EXPOBAR OFFICE CONTROL ESPRESSO COFFEE MACHINE is sensational for those who love to entertain! This fully automatic, home espresso machine has four programmable doses to dispense the desired amount of espresso with the touch of a button.

The commercial group, with direct pre-infusion, allows for a consistent espresso extraction and the heat exchanger, with thermosiphon, means you can brew and steam at the same time, without waiting for the boiler to 'recover'. Equipped with a commercial 'cool touch' steam wand and a hot water outlet, each mounted on ball joints that swing in any direction make the OFFICE CONTROL a pleasure to use.

### KEY FEATURES

- Volumetric Automatic Control
- Four programmable dose buttons
- One manual dose button
- Commercial group and portafilter
- Direct pre-infusion
- Heat exchanger boiler system
- Low water level cut off
- Copper boiler with 1.5 litre capacity
- Automatic boiler refill
- 2.75 litre water tank
- 2000 watt element for unlimited steam production
- Automatic cleaning program
- Water softening filter
- Steam tap
- Hot water outlet
- Removable drip tray
- Cup warming tray

## EB61 LEVA

FOR THE BUDDING HOME BARISTA...From EXPOBAR comes the popular EXPOBAR OFFICE LEVA espresso coffee machine. The classic stainless steel body attracts attention, but its looks are only the beginning of its true cafe style espresso experience!

Designed for the budding barista, the OFFICE LEVA employs sturdy commercial components from a world famous espresso machine line. Packed with commercial grade features the OFFICE LEVA is a true heat exchanger espresso machine. With the 1.5 litre copper boiler, powered by a 2000 watt element and the thermosyphon heat exchanger, this machine has no problem extracting the perfect espresso and texturing 'silky' milk simultaneously.

### KEY FEATURES

- Manual lever control of extraction time and volume
- E-61 Commercial lever brewing group
- Mechanical pre-infusion
- Heat exchanger boiler system
- Low water level cut off
- Copper boiler with 1.5 litre capacity
- Thermosyphon heat exchanger
- 2.75 litre water tank
- 2000 watt element for unlimited steam production
- Steam tap
- Hot water outlet
- Large removable drip tray

## MINORE

FOR THE SERIOUS HOME BARISTA...The EXPOBAR OFFICE BARISTA MINORE IV sets the standard for what is possible from a home espresso machine. It is truly a lifetime investment for the espresso enthusiast! Its traditional style, compact size and commercial strength make this a leading competitor in the home espresso machine market. The eye catching, highly polished steel housing is as durable as it is beautiful.

The EB-61 commercial group provides mechanical pre-infusion and is directly connected to a 1.5 litre copper boiler that is controlled by P.I.D. to maintain temperature stability.

### KEY FEATURES

- Manual lever control of extraction time and volume
- E-61 Commercial lever brewing group
- Mechanical pre-infusion
- P.I.D controlled boiler with digital display
- Multi-Boiler technology
- 2 x Copper boilers with 1.5 litre capacity
- 2 x 2000 watt elements for un-interrupted steam production and grouphead control
- 2.75 litre water tank

**MINORE IV (PLUMBED IN VERSION)**  
RRP \$3,500 (INC GST)

### 1 GROUP OFFICE RUGGERO BARISTA MINORE

Craftsmanship, quality and exclusivity! These are the features that make the RUGGERO a truly spectacular espresso machine.

Traditional E61 lever group head which weighs 4.2Kg is made completely of brass and has been chrome plated.

Dual boiler system of which each is 1500ml in capacity and has a large 2000watt element in each boiler, the largest boiler capacity to element wattage in its class. What does this mean? Steam, steam, steam, and a quick heat up time! Both boilers are insulated to help reduce heat loss.

Boiler construction is of copper and brass which has been proven for its reliability, strength and durability.

One boiler is for producing steam, hot water and to pre-heat the water entering the brew boiler via a heat exchanger so as to keep the brew boiler temp stable. This boiler (steam boiler) is controlled by an adjustable pressure stat that can be adjusted up to 1.4 bar steam pressure for more steam velocity. (Machine comes set at 1 – 1.1 bar)

The brew boiler is dedicated for maintaining the perfect temp of water for the extraction of coffee via the group head. It does this with its PID temp controller which can be set very easily to the desired extraction temp for the blend of coffee you are using. The PID controller minimizes the temp swing by pulsing the brew boiler element to maintain the set temperature.

The machine comes standard with a vibrating pump and is fitted with a pump pressure regulator which is adjustable externally to maximize your control over the extraction pressure. (Comes set at 12bar)

Two taps – one for hot water to make tea and one for steam, which has a no burn steam arm. The body is made of 2mm thick stainless steel for strength.

Large drip tray so you don't have to empty it after just 2 coffees!

The water reservoir has a capacity of 2750mls. Steam pressure gauge and pump pressure gauge.

Custom hand built machine to order, your colour, your LED sign. Comes standard with the traditional Crema Cafe light box sign – colour must be selected when ordered. Body can be painted matt or gloss in any automotive paint colour available in Australia | NZ or design something yourself and we will make it happen.
